ENNIO. Collezione disegnata dall'architetto Francis Sultana per Stella, il quale si è ispirato alla colonna neoclassica di cui riprende la scanalatura verticale, addolcendone le forme, gli spessori e ripensandone completamente le proporzioni creando un gioco armonioso di curve e riflessi. Il suo design è prestigioso, con volumi importanti ma sobri, raffinato anche nella sua serie di accessori.

ENNIO. A collection designed by architect Francis Sultana for Stella, who drew inspiration from the neoclassical column whose vertical groove echoes, softening its shapes, thicknesses and completely rethinking its proportions, creating a harmonious play of curves and reflections. Its design is prestigious, with important but sober volumes, refined even in its range of accessories

ENNIO. Une collection conçue par l'architecte Francis Sultana pour Stella, qui s'est inspirée de la colonne néoclassique dont la rainure verticale résonne, adoucissant ses formes, ses épaisseurs et repensant complètement ses proportions, créant un jeu harmonieux de courbes et de reflets. Son design est prestigieux, avec des volumes importants mais sobres, raffinés même dans sa gamme d'accessoires.

Francis Sultana è un designer d'interni nato a Malta e con studio a King's Street a Londra, regolarmente presente nella lista annuale AD100 compilata da Architectural Digest. Con uno stile legato al "lusso, su misura e sontuoso" ("Living") dove riesce a mixare "barocco e arte pop" ("Financial Times"), trova espressione perfetta nel progetto- in cui ha creato il concept poi diventata serie Ennio - dell'Hotel La Palma a Capri.
